

Guidelines for Clinical Services Committee

The function of this committee is to establish and maintain communication with the NSLHA Board and the Membership with regard to current practices and issues relative to speech, language, and hearing services in clinical settings. The committee's function is also to monitor, review, and recommend association action on state, federal, and ASHA legislation, which has implications for speech/language pathologists and audiologists working in clinical settings.

The membership of this committee shall consist of a minimum of three members, with the chair(s) appointed according to Executive Board policy, and should consist of speech/language pathologists and audiologists working in clinical settings and represent a broad geographic segment of these professionals.

- I. Purposes of the Committee
 - A. To increase networking among clinical professionals
 - B. To share information relating to clinical issues
 - C. To increase membership in NSLHA
 - D. To support issues and concerns relating to clinical professionals
